

ZONE 2 AIR COMPRESSOR

This portable offshore air compressor is powered by electricity and specifically designed to be used in a variety of temperatures. It is capable of maintaining low noise levels, even when operating in extremely high ambient temperatures.

The compressor module is designed and approved according to ATEX, IECEX, DNV 2.7-2 and NORSOK Z-015, for operation worldwide. This machine offers a unique combination of size vs. capacity!

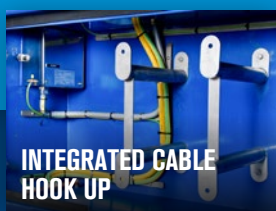

Compressor type:	Oil-flooded screw
Ambient temp.:	-20 to +45 °C
Pressure:	10 bar
Flow:	10-30 m ³ /min
Engine power:	75-225 kW
Speed:	1170 1/min
EX approval:	Zone 2, 3G IIB T3
Noise level:	80 dB(A)
Coolant:	Air
Size:	3.5 x 1.9 x 2.5 m
